4. Overview of HRD-701

HRD-701 is a portable multimedia music player. It has a large LCD screen, a speaker, a microphone, and a camera. It supports various audio and video formats. The device is powered by a rechargeable battery. It has a USB port for connecting to a computer. It also has a 3.5mm audio jack for headphones. The device is compact and easy to carry.

15. Notes

1. Do not use the device in a car or other moving vehicle.
2. Do not use the device in a flammable or explosive atmosphere.
3. Do not use the device in a magnetic field.
4. Do not use the device in a high-temperature environment.
5. Do not use the device in a low-temperature environment.
6. Do not use the device in a humid environment.
7. Do not use the device in a dusty environment.
8. Do not use the device in a salty environment.
9. Do not use the device in a corrosive environment.
10. Do not use the device in a high-voltage environment.
11. Do not use the device in a low-voltage environment.
12. Do not use the device in a high-frequency environment.
13. Do not use the device in a low-frequency environment.
14. Do not use the device in a high-pressure environment.
15. Do not use the device in a low-pressure environment.

4.2.3. Power on

Press the power button to turn on the device. The device will start up and display the main menu. The device will be powered on for 30 seconds if the power button is pressed for more than 3 seconds.

4.2.4. Power off

Press the power button to turn off the device. The device will stop working and the LCD screen will go dark. The device will be powered off for 30 seconds if the power button is pressed for more than 3 seconds.

4.2.5. Sleep mode

The device will enter sleep mode if it is not used for a certain period of time. The device will wake up when the power button is pressed. The device will be in sleep mode for 30 seconds if the power button is not pressed for more than 30 seconds.

4.2.6. Volume control

Use the volume buttons to adjust the volume of the device. The device will have a volume indicator on the LCD screen. The device will have a volume limit function to prevent the volume from being too high.

4.2.7. Playback control

Use the playback buttons to control the playback of the device. The device will have a play/pause button, a stop button, a previous button, and a next button. The device will have a fast forward button and a fast reverse button.

4.2.8. Menu navigation

Use the menu button to navigate through the menu of the device. The device will have a menu button and a back button. The device will have a home button to return to the main menu.

4.2.9. Camera function

Use the camera button to take a picture with the camera of the device. The device will have a camera button and a camera lens. The device will have a camera flash and a camera timer.

15. Notes

1. Do not use the device in a car or other moving vehicle.
2. Do not use the device in a flammable or explosive atmosphere.
3. Do not use the device in a magnetic field.
4. Do not use the device in a high-temperature environment.
5. Do not use the device in a low-temperature environment.
6. Do not use the device in a humid environment.
7. Do not use the device in a dusty environment.
8. Do not use the device in a salty environment.
9. Do not use the device in a corrosive environment.
10. Do not use the device in a high-voltage environment.
11. Do not use the device in a low-voltage environment.
12. Do not use the device in a high-frequency environment.
13. Do not use the device in a low-frequency environment.
14. Do not use the device in a high-pressure environment.
15. Do not use the device in a low-pressure environment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
